Employees Left by Work-Life Balance

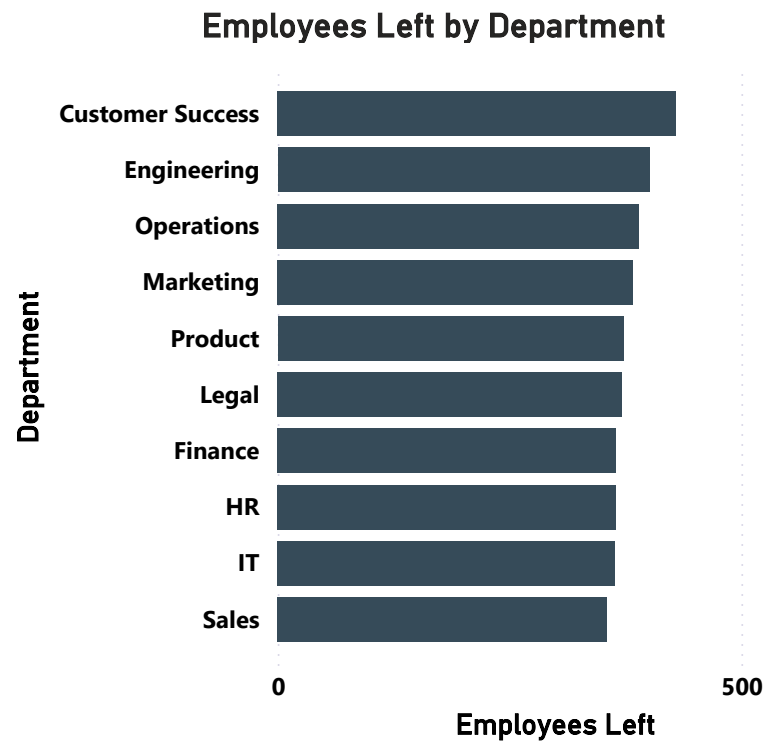

Employees Left by Training Level

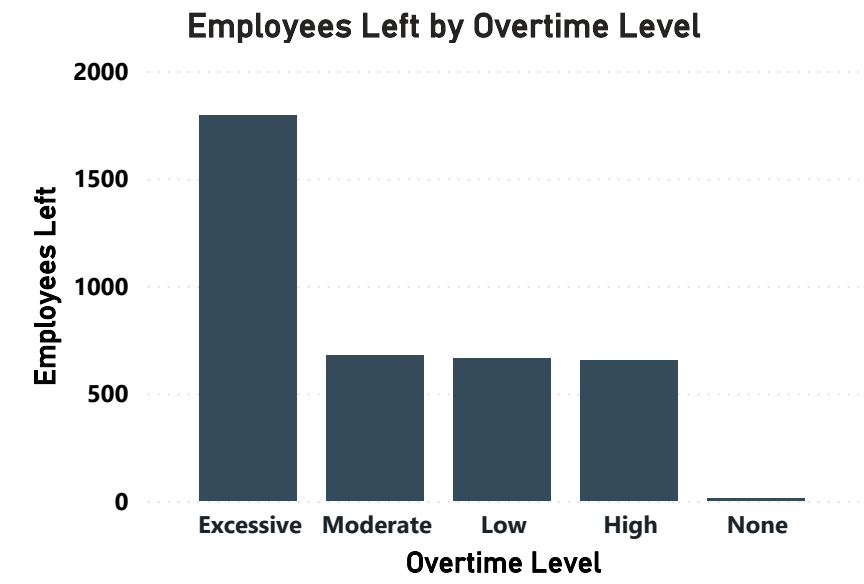

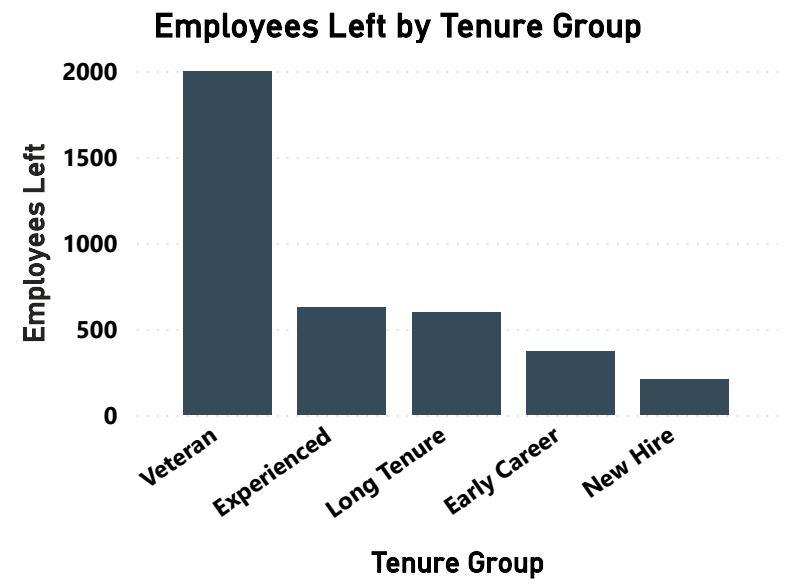

- Insights**
- 1. **Employees Left by Role Level:** Attrition is spread pretty evenly. Analysts and VPs are slightly highest, Team Leads lowest. No single role is "safe".
 - 2. **Employees Left by Promotion Recency:** Huge spike for people who haven't been promoted in 6-10 Years. Drops a lot for 3-5 Years, 1-2 Years, and Promoted This Year. Clear promotion stagnation issue.
 - 3. **Employees Left by Performance Category:** Outstanding performers are leaving the most by far. That's a red flag - you're losing top talent.
 - 4. **Employees Left by Work-Left Balance:** Excellent WLB has the highest exits. That's counterintuitive. Could mean "Excellent" is mislabeled, or top performers with good WLB are still leaving for other reasons like growth/pay.
 - 5. **Employees Left by Training Level:** Extensive training has the most attrition. Maybe people get trained then leave, or training isn't translating to career growth.

- 3 Key Insights**
- 1. **Promotion Gap:** People leaving most after 6-10 years with no promotion.
 - 2. **Top Performer Loss:** "Outstanding" employees are our biggest attrition group.
 - 3. **Training Paradox:** Most training = Most leaving. Need to check ROI of training programs.

Executive Summary

15K	3797	25%	3.19	2.99
Total Employees	Employees Left	Attrition Rate	Average Job Satisfaction	Average Work-Life Balance

1. Key Findings

- **High Attrition:** Overall attrition rate is 25%, with 3,797 employees leaving out of 15K.
- **Burnout Driver:** Employees with "Excessive" overtime have the highest number of exits.
- **Veteran Turnover:** The "Veteran" tenure group accounts for the majority of attrition.
- **Department Risk:** Customer Success and Engineering departments show the highest attrition
- **Low Engagement:** Average Job Satisfaction 3.19 and Work-Life Balance 2.99 indicate engagement issues.

1. Root Cause Hypotheses

- Workload/Burnout from excessive overtime..
- Possible lack of growth/recognition for veteran employees.
- Department-specific culture or manager issues in CS & Engineering.

1. Recommendations

- **For Overtime:** Audit workload and enforce overtime policies. Hire to reduce burden.
- **For Veterans:** Create retention programs, career paths, and stay interviews for 10+ years employees.
- **For Departments:** Do exit interviews in CS & Engineering to find specific causes.
- **For Work-Life Balance/Satisfaction:** Employee surveys + wellness programs to improve the 2.99/3.19 scores.
